

The life of KONTRA K

MY ESSAY about a famous musician

The childhood

Maximilian Diehn as known as Kontra K was born on 3th Juli 1987 in Berlin and is 33 years old. Partly he grew up there, because he visited a boarding school outside from Berlin for 3 years in his youth. The school was something what he did not like. His childhood was sometimes good and sometimes bad, he said. It was a childhood with ups and downs. The police banned him from seeing his father for a while. He wrote a song about it. The song became one of his most famous songs.

Everyday life

Today he is a succesfull musician in the genre rap and has great passion for martial arts. He saved the life of a little tiger which he named Elsa and built a enclosure in the Dassow Zoo for her (not in Berlin, it is in Lübeck). The tiger is now no longer a baby; her weight now is about 200 kg since last time weigh. He is father of two boys; i only know the name from the older boy: he is called Nathan. Nobody knows the age from his sons , because his family is really important for him and he does not like to say anything about his family in the public. His relationship status is not known, either. He has 2 dogs 2 fight dogs and every morning he is jogging with them. He owns a boxclub, where he trains children and teenagers.

Why is he inspiring me

I find this person inspiring, because his songs are written by him, based on his own experience. He attaches great importance to loyalty, i like that. The family is very important to him. His biggest wish is that every human should treat eachother respectfully and peacefully. He is a very nice and sympathtic person and has a big heart for animals. In 2020 he was in Australia because he wanted to help the poor kangaroos and he donated a bit of money.

Would i like to emulate or copy this person

I think it's great how he treats his fans and what he does, but I wouldn't want to copy him, because I want to go my own way.
